

## **EFI Engine Cutaway Model Motor Operated Model: ZC-EFI01A**

### Features:

- a. This petrol engine training skills in disassembly, reassembly, engine operation, tune-up, repair, maintenance and overhaul
- c. Engine without transmission in running condition
- d. Engine mounted on a sturdy tubular steel stand equipped with rotating device with lockable castor wheel for mobility

### Specification:

|                |   |
|----------------|---|
| Engine         | 4-cylinder in-line, 4-stroke (Recondition Engine) |
| Fuel           | Petrol fuel                                       |
| Displacement   | 1000-1600cc                                       |
| Valves         | OHV (Over Head Valve)                             |
| Working Volume | 1500cm <sup>3</sup>                               |
| P              | 106   |
| NM             | 140   |
| Total Valves   | 16nos   |
| Diameter       | 70-80 mm  |
| Supply System  | Intelligent                                       |
| Ratio          | 10 ? 14   |

|   |                                      |
|---|--------------------------------------|
| Consumption   | 12.6.10                              |
| Volume of oil/L   | 3-5                                  |
| Resource  | 124,275M                             |
| Motor   | Power source-220v/380v. 50Hz. 1.5 HP |
| Cooling system  | Liquid cooled with radiator          |
| Built in flywheel guard and radiator guard for safety. 5 litre fuel tank with fuel pump |                                      |
| Exhaust manifold and silencer   |                                      |
| Instrument panel consist of key ignition switch, oil pressure gauge, water temperature  |                                      |
| Efficiency increased by reducing in charge  |                                      |
| No noise, low Consumption   |                                      |
| Rings with a light skirt and coated with LFA  |                                      |
