

Mini Hydraulic Press Machine

ZC-QC077D

Features:

Used for assembling, dismantling, alignment, calendaring, tension, bending and punching.

It could save 60 percent energy compared with the traditional model.

The efficiency increased to 2-3 times.

It should take the advantages of small volume, high pressure, simple structure and light weight.

Technical Specifications:

Capacity: 30T

Working Range: 0-810mm
